

## MID-TERM DISCUSSION CONFIRMATION

As part of nanoGUNE's PhD Mid-term program, PhD students are requested to select two Senior Scientists or Research Fellows, who are willing and available to serve as Mid-term Discussion Partners, send them a short research report summarizing the PhD research project and an updated CV, and arrange a one-on-one conversation about the PhD with each of them. The selected Discussion Partners do not need to have a close scientific overlap with the activities of the PhD student (even if it would be preferable that one of them does). In exceptional cases, scientists from outside nanoGUNE can be considered.
